

Computer Graphics Design I

Lesson 7 (Working with Text) Practice Assignment

Directions: Download and open the **L7Start** file). Then use the skills you learned from our practice with the **Typography Tools** to create the finished documents you see below (and on the back side). Use textbook if you need further directions on how to complete

Add the text “transform yoga” to the shape; add a warp to bend it around this graphic (Effect > Warp)

Add the text you see here to the existing path (hover mouse over this area to see it); to add the dots between the various text, insert glyphs (Text > Glyphs)

Add area type; Import text from “L7Copy.txt file; make into 2 columns

Add area type (1000 Lombard Ave. Central, Washington); make text centered, tracking=60, size 16pt, you choose font style

Change text to Minion Pro, Size 13pt, change text color to a blue of your choice (where it can be read); add the © glyph after the word “Yoga” (Type > Glyphs)

Make Paragraphs Headings Minion Pro, Size 12pt, and white text color; space after paragraph = 5pt

Add point type (info@transformyoga.com)

If the text doesn't fit in the columns, either (1) change the leading (2) make the text box slightly bigger or (3) make the text slightly smaller

Wherever it says “Pranayama”, make text color Mustard color

Add “transform” text (Myriad Pro, bold condensed, Size 48pt); warp text to Arc Upper; use text wrap w/ 4pt offset

Add point type “transform yourself” with color settings of C=89, M=61, Y=0, K=0; rotate text 90 degrees; reposition the text box to what you see below; resize text box to reach from the top to bottom of the postcard; change the opacity of the text by 50%; convert the text to outlines

Add area type; Import text from “yoga_pc.doc” file; thread text so that it continues in another text box below the wave line of text (starting with “This sale...”)

Create text on the wavy path provided
